PROFILE

Self-Taught Full Stack Developer with hands-on experience designing, building, and deploying full-stack web applications. Skilled in developing user-focused digital solutions across frontend and backend systems, with a strong interest in Artificial Intelligence, software architecture, and real-world problem solving. Passionate about learning emerging technologies and turning ideas into practical products.

EXPERIENCE

Leadership Center at LIA 2025 - PRESENT

Full Stack Developer

- Developed a grading management platform featuring role-based access control, performance dashboards, and reporting tools using React, Node.js, Express.js, MongoDB, and Tailwind CSS.
- Streamlined the student evaluation process by replacing manual record-keeping with a centralized and data-driven system.

Volunteering Organization - ENPA 2024

Full Stack Developer & UI/UX Designer

- Built a volunteer management platform with registration, activity event management, secure data storage, and Gallery Management using MongoDB, Express.js, React, Node.js, Tailwind CSS , and Figma.
- Improved organizational efficiency by digitizing volunteer records and received official recognition for the successful project delivery.

GoodayOn 2026

Software Engineer - 2-Month Internship

- Built user-focused digital products and AI-powered automations to address real business needs, translating requirements into practical and efficient software solutions.
- Designed automated workflows using Webflow, n8n, Jira, and Slack, streamlining operations while gaining hands-on experience in AI automation and product development.

Lebawi International Academy (LIA) 2025 - 2026
